

## News From Your TOWN HALL

The Town Fathers didn't make any provisions Wednesday night for distribution of Xmas Cheer to its employees—the fire interrupted their regular deliberations.

The fire might be used as a warning to the Department about hydrants. There are a number of houses further away than the ones that burned Wednesday night. Such are the growing pains of a pioneer community.

The \$1000 license fee of the carnival is referred to by some of the Town's citizens as "tainted" money—taint enough according to the ordinance and taint wanted by the merchants. One large merchant thinks that the carnival has a very telling effect on his business.

Some wonder about the inconsistency of "no gambling" allowed in the Town, except a carnival.

Some of the bond boys in the State are and are worrying now about the Town's sale of the bonds. They claim they didn't know anything about the sale. We might suggest that \$2 spent for a bond subscription is a good paper—The Herald—would give that information.

## Volunteer Department Stops Serious Fire

Belle Glade's volunteer fire department saved a great part of the colored quarters Wednesday night by quick and efficient fire fighting.

Some negro tenant lighted a kerosene lamp, closed the door and went off; in some way the fire was started. The buildings were wood, well seasoned, dry and the fire was fanned by a westerly wind—directly into other buildings.

Indications of the effectiveness of the fire fighting are that two buildings, one on the south and one on the east were about 15 feet from the burning buildings and were saved intact. Each of the neighboring buildings caught several times and were "outened."

A total of 1800 feet of 2 1/2 inch hose was used because of the distance of the fire from the nearest plug; three streams of water were played on the fire. The old engine was called out but was not used.

## Sonny Smith Makes Hole-In-One

Sonny Smith, sixteen-year-old high school student, walked away with the honors at a tournament Saturday afternoon by making the 162 yard seventh (par-) hole in one blow. He won \$100 in War Bonds for his feat.

"You pays your two bucks and gets eight shots" was the chant of the promoters. Sonny only took five—the fifth went kerpink into the hole and Sonny didn't waste any more effort.

Another high light of the tournament was that Hitch Hitch Smith, who was the champion of the last year, was the champion of the last year.

Those whose high school playing days are over are: Luc Cherry, Kirby Waddell, Jeffries, Goggins, Williams and Eggleston.

## Rotary Turns Community Xmas Tree Over to Salvation Army Here

A yearly custom since its organization eight years ago was officially abandoned by the Rotary Club Board of Directors in favor of the Salvation Army which has come to the Glades with an organization under Captain Blackburn.

President Dick Townsend says "Heavy given a Christmas present to the children of the Community in the form of a \$400 donation towards the ten-year-old Xmas fund, the Board feels it fitting that a donation of \$100 be made to the Christmas Stocking Fund of the Salvation Army."

The Christmas Tree as a Community project has filled its purpose, and we feel that the new tradition is able to carry on the work.

Joe Freedlund, for Rotary has secured the use of a store room from Mr. C. E. Heidel for the use of the Salvation Army in storing toys, fruit and other Xmas goods and for use in packing them.

Toys and dolls will be brought here, repaired, fixed up and made ready for Santa, with the assistance of some of the ladies of the community.

The next meeting will be held at the Country Club of the Everglades with ladies participating and a formal induction of new officers.

Other visitors were D. R. Hall of the Market Reporting Service and L. M. Reed of the Army Quartermaster Corps.

The name of this organization is Everglades Branch of the National League of Wholesale Fruit and Fresh Vegetable Dealers.

## Sixteen Reasons Why Pahokee Didn't Win--Lutz and Cherry--Coach Cook And Thirteen Other Local Players

### History Making End To Most Successful Season

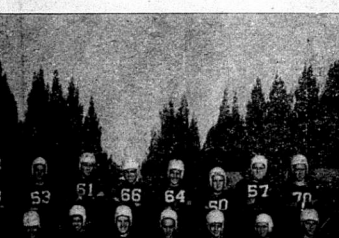

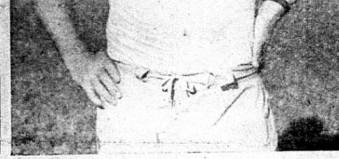

#### A Tie Is the Best Local Boys Could Make With Pahokee Team Friday

The Belle Glade Rams with a record of seven-wins out of nine games really "put out" Friday night and played the Blue Devils of Pahokee off their feet. The score of 7-7 is not indicative of the game played by the local boys. They were easily 14 points better than the Pahokee aggregation, but this and that, as usual in a high school game, kept them from scoring, as they should.

Coach Cook said that they played the best game of the season, over exceeding the efforts of Fort Lauderdale, and anyone who saw the Rams lineament tearing holes through the opponent's line to smother the backfield before they got started, can easily believe it.

There were eleven men on the field playing during the whole game—giving what they had, and had plenty for Pahokee. "That old combination of Lutz and Cherry was too much for the boys up there. Lutz 'chunked' several to Cherry and went for 30 yards. Cherry went for a 40-yard run another time and Lutz 'toted' it over, and the conversion was easy.

An excellent kick by Pahokee put the ball near the goal line and Belle Glade, up to that time masters of the field, got one of those breaks. Lutz kicked successfully made the out of bounds but did it too quickly and gave the ball to Pahokee for the first time deep in the Rams' territory. Hand it to them, by our own mistakes and their good football, they made the touch (Continued on page 6)

## Fans Give Coach Substantial Xmas Present In Bonds

Wee Willie Weeks, self-propelled, with encouragement from those to whom he mentioned it, made up a list of 80 fans whom he thought would gladly indicate their appreciation of his work with the local football boys and ended up with the goal set at the beginning, \$500 for Coach Cook.

A \$400 War Bond was given to Coach Cook and the remainder in cash.

Coach Cook didn't refuse the gift, but was embarrassed to the point of few words. However, he did manage to say "Thank a lot. The people in Belle Glade have been just as nice to me as anyone could expect—in fact more so. I've said this before and I'll say it again, now it is immeasurably so."

## Look Ahead, Labor!

The cause of organized labor continues to suffer because of wartime strikes. A short time ago, General Eisenhower sent home word that this country was not producing sufficient military supplies to keep up with the demands of the advancing American armies in Europe. Then, if ever, was the time for labor to see that not a day or an hour be lost in the production of the needed equipment. Instead, immediately after Eisenhower's plea, more strikes occurred. Never has the comparison between failure at home and the cry for help from the front been more direct or more bitterly apparent.

Everyone sincerely concerned with the future of American labor cannot help but shudder at the public wrath which its shortsighted officers and members threaten to bring down on its head. Day after day the newspapers in great metropolitan centers contain page after page of war casualty lists. And each casualty represents a man with a family in America, a family who reads in those same papers of disgraceful strikes in vital war plants. There is little these men and their families can do just now. They are not organized. No one can speak authoritatively for them. They are as helpless as the millions of other men overseas, and their families—men who are not casualties and who fight on with no thought of desertion or mutiny which would be comparable to wartime strikes.

Some day when the war is over and the service men and their families are reunited, they will be heard from. Why don't more union spokesmen look ahead to that day?

## No Escape

"The need for increasing government revenue drives the alert tax official to the site of the least sign of financial prosperity, as surely as the keen scent of the desert coyote is attracted to the smallest green bush nourished by the tiniest stream of water. Scientists may boast that the horizon of invention is unlimited; but we can depend upon it, no matter how fast science moves it can never outstrip the tax collector. He is figuratively sitting on the laboratory doorsteps waiting for new things to be invented so he can tax them." Thus spoke one authority recently.

There is no escape. A heavy tax burden will be our constant companion for years to come. This grim fact should be kept firmly in mind when the easy spenders try to tell us that we owe the public debt to ourselves, and for that reason there is no cause to worry over proposals for new and monumental governmental peacetime extravagance.
